

AN EYE ON SMART TOOLING

ESMR SAYS:

Investment & equipment for smart tooling

Tooling specialist, WMA, has made substantial investments in new capacity and smart tooling for the future.

Willmott Machinery (WMA) is a leading provider of industrial machinery and tooling solutions. The company has recently announced a major investment in new capacity and smart tooling for the future. This investment is a key part of WMA's strategy to expand its product range and improve its operational efficiency. The investment will be used to purchase new machinery and tooling, as well as to invest in research and development. This will enable WMA to offer its customers a wider range of products and services, and to improve the quality and reliability of its products. The investment is expected to be completed by the end of 2015.

FACE-TO-FACE INTERVIEW

interviews, especially when you're applying for an entry-level position. Interviewing is a two-way street. The way you behave in an interview can make a big difference.

Tip: Interviewers are looking for candidates who are confident, organized, and professional.

How to prepare for an interview

1. Research the company. Before you go to an interview, take the time to research the company. Look up the company's website, social media, and news articles. This will help you understand the company's culture, values, and mission.

2. Prepare your questions. Think about the questions you might be asked and prepare your answers. Also, think about the questions you want to ask the interviewer. This shows that you are interested in the company and the position.

How to make a good impression

1. Be on time. Arrive at the interview on time, or even a few minutes early.

2. Dress professionally. Wear clean, well-fitting clothes that are appropriate for the industry.

3. Be confident. Stand up straight, make eye contact, and speak clearly. Don't be afraid to talk about your strengths and experiences.

4. Listen carefully. Pay attention to the interviewer's questions and answers. This shows that you are interested in the position and the company.

How to follow up after an interview

1. Send a thank-you note. Write a short note to the interviewer, thanking them for the interview and expressing your interest in the position.

2. Follow up. If you haven't heard back from the interviewer, it's okay to follow up. Call or email them to see if they have any updates. This shows that you are still interested in the position.

It's important to remember that an interview is a two-way street. The way you behave in an interview can make a big difference.
